Sports Board games

Programming

About me

I have always looked for new opportunities and challenges, and I am used to holding my own in competitive situations. I usually find common ground with people easily. I enjoy sports, board games and programming.

Experience

C++ Lab Demonstrator (Teaching Assistant)

BME · Budapest

- Helped students solve the laboratory exercises.
- Graded the semester's major homework assignment.
- Compiled the lab entry quizzes: selecting 2 questions per lab that counted towards the students' end-of-semester grade.
- Proctored midterm exams: monitored for cheating and helped with technical problems.

STACK C++

SKILLS Meeting deadlines OOP

Programming Tutor

Freelance · Online

- Tutored students in Python and prepared them for the final school-leaving exam, midterms and other assessments.

STACK Python

SKILLS Empathy Patience Communication

Other jobs

Various

- Waiter
- Server on a boat
- Stage builder

SKILLS Fast, precise work High standards Quick learner

Projects

Sudoku Solver 🔗	Sudoku solver written in C.	C
Path Finder 🔗	Path-finding application written in C++.	C++
LifeSim 🔗	Life simulation written in Java.	Java
Mankala 🔗	Mancala board game implemented in Rust.	Rust
Risk (board game) probabilities 🔗	Probability analysis of the Risk board game's battles in a Python notebook.	Python

Education

BSc in Computer Engineering

2023 – Present

Budapest University of Technology and Economics (BME)
